SMARTER SAP S/4HANA MIGRATION WITH SHIFT LEFT TESTING & AI

Fast-track a smarter SAP S/4HANA migration with Roboyo's Shift Left Testing, End-to-End automation, and AI for a seamless and successful migration.

NAVIGATING THE SAP MIGRATION DEADLINE

The **2027 SAP migration deadline** is fast approaching, with migrations averaging **1.5–3 years.** Companies face tight timelines, **complex integrations**, and **critical data validations**—all while ensuring business continuity. Traditional testing methods risk delays, cost overruns, and disruptions. A smarter approach is needed to overcome these challenges and ensure a seamless, efficient transition to SAP S/4HANA.

ROBOYO: REDEFINING SAP MIGRATION SUCCESS

Roboyo redefines SAP S/4HANA migrations with advanced testing and automation. Our **Shift Left Testing** detects defects early, while **AI-powered tools**, like **UiPath Autopilot™**, ensure precision and efficiency at every stage. With tailored solutions, we simplify complexities, reduce risks, and maximize value. Prebuilt **Accelerator Packs**, powered by **UiPath Test Suite**, shorten timelines, cut costs, and safeguard continuity for successful migrations.

SUPPORTING SAP S/4HANA MIGRATION
EVERY STEP OF THE WAY

Roboyo's comprehensive test strategy streamlines every stage of your SAP S/4HANA migration, ensuring precision, efficiency, and alignment with SAP's RISE and GROW methodologies.

| Shift Left Testing	Agentic AI Integration	End-to-End Automation	Accelerator Packs	Industry Expertise	Data Validation Strategy	Integration Testing
Detects defects early by embedding testing upfront, reducing risks.	Empowers smarter automation decisions with real-time insights.	Automates regression and validation processes seamlessly.	Provides reusable packs for O2C and P2P to save time and costs.	Delivers tailored solutions for CPG, retail, and manufacturing.	Ensures accurate mapping and validation of all migration data.	Validates tight integration with upstream and downstream systems.

SHIFT LEFT TESTING FOR SAP S/4HANA: SMARTER, FASTER, BETTER

Roboyo's Shift Left Testing integrates QA early in the migration process, leveraging advanced automation and UiPath Autopilot™ to deliver smarter, faster, and more accurate testing.

HOW WE APPLY SHIFT LEFT

ATTENTION TO QUALITY

SHIFT LEFT

Roboyo's Shift Left QA

Traditional QA

DISCOVER
Map key processes with task mining and reusable assets.

PREPARE
Develop strategies, finalize outputs, and initiate test design.

EXPLORE
Create automated tests for global templates and validate data migration.

REALIZE
Perform automated system, regression, and integration testing.

DEPLOY
Validate readiness with automated UAT and regression testing.

RUN
Monitor, optimize, and reuse test libraries for ongoing updates

Up to
30%
FASTER DEFECT DETECTION

2X
FASTER TESTING CYCLES

Up to
30%
COST SAVINGS

ON TIME
QA DELIVERY

WHY PARTNER WITH ROBOYO?

Global Expertise:
Proven success across industries, supported by a talented global team.

End-to-End Automation Support:
From strategy to execution and post-migration optimization.

Strategic UiPath Partnership:
Industry-leading automation tools powers our Shift Left Testing approach.

Accelerated Results:
Early automation and reusable assets drive faster, high-quality outcomes.

READY TO FAST-TRACK YOUR SAP S/4HANA MIGRATION WITH SMARTER, FASTER SOLUTIONS?

Discover how Roboyo's Shift Left Testing and AI solutions streamline your migration, enhance accuracy, and minimize risks.
